

There are additional mounting brackets for all types of applications; if you are mounting to a flat surface, tube or racks.

You may also purchase an optional 1/16" steel locking cable that enables you to lock the saw down to the scabbard when you leave it unattended.

Byte Tyte Chain-Saw Scabbard carries a **Life-Time Warranty**. If it breaks, just send it back and we will repair or replace it at no charge. Freight charges will apply.

Byte Tyte Chainsaw Scabbard

The Byte Tyte chainsaw scabbard is an all-aluminum, lightweight, universal mounting sleeve. The special patented locking sleeve is extremely resilient and allows you to securely mount your chainsaw to any surface without the fear of bar or chain damage while it is in the scabbard.

They work great for: 4-wheelers, motorbikes, snowmobiles, trucks, utility boxes and racks. They come in 13", 16", 18", 20", and 30" lengths. You can also order any custom length.
